CORONATION – User Privacy Notice

This privacy notice explains how the CORONATION registry uses the personal data we collect from you when you register as a user.

What data do we collect?

The CORONATION study collects the following data:

- Personal identifiable information (Name, email and/or registration number)

How do we collect your data?

We collect data and process data directly from you when you register on the website.

How will we use your data?

The CORONATION Registry collects your data so that we can:

- Validate your email address
- Email you if there are any queries related to the participant data you enter

All information collected about you as a result of your registration in this e study will be kept strictly confidential.

How do we store your data?

CORONATION registry is sponsored by Cambridge University Hospitals NHS Foundation Trust and the University of Cambridge. Cambridge University Hospitals NHS Foundation Trust is the data controller of the study.

The CORONATION Registry user data will be stored in a secure encrypted database hosted on MS Azure server (UK based) in line with both local and national guidance, including the Data Protection Act 2018 and GDPR. All website traffic will be Hypertext Transfer Protocol Secure (HTTPS) encrypted to ensure confidentiality and protection of data.

You can find out more information about the Trust data protection policy here: https://www.cuh.nhs.uk/about-us/our-responsibilities/looking-after-your-information/about-information-governance

Changes to our privacy policy

The CORONATION Research Office keeps its privacy notice under regular review and places any updates on this webpage.

This privacy policy was last updated on 28th July 2020.
